

JARED KONOP

SOFTWARE ENGINEER

EXPERIENCE

Software Engineer

Print Tech of Western PA | Pittsburgh, PA | June 2022 - Present

- Developed and maintained 200+ e-commerce websites using HTML, CSS, and JavaScript, ensuring smooth functionality, high performance, and optimal user experience (UI/UX).
- Introduced and integrated REST APIs into Infigo's e-commerce platform, enhancing efficiency through automation and data sharing, resulting in reduced human interaction.
- Reduced manual effort by 100% and enhanced efficiency by 90% by leveraging the Enfocus Switch automation platform to streamline workflows and daily processes through the creation and implementation of automated scripts.
- Adapted Agile methodology to manage projects in a fast-paced environment, ensuring iterative development, continuous feedback, and timely delivery of high-quality software.
- Proactively addressed client concerns, delivered timely resolutions to technical issues, and maintained exceptional responsiveness and communication to ensure a seamless and positive client experience.

JV Head Coach

Springdale Highschool | Springdale, PA | November 2022 - Present

- Served as a dedicated high school basketball coach, leading, and mentoring a team of student-athletes, instilling values of discipline, teamwork, and perseverance.

PROJECTS

Portfolio Website, May 2024

JavaScript, ReactJS, Tailwind CSS, Bootstrap, Vercel, GitHub

- Developed a comprehensive portfolio showcasing my projects, technologies used and live demo links.
- Built a responsive layout ensuring accessibility and visually appealing on various devices.

Golf Website Revamp, June 2024

TypeScript, ReactTS, Vite, Vercel, GitHub

- Revamped the company's existing website both functionality and visually using modern web technologies.

TelePreceptMatch, Spring 2022

JavaScript, React.js, Node.js, SQL, Heroku, GitHub

- Collaborated in a team to program a live website to connect students with preceptors for clinical rotations.
