WORK EXPERIENCES

Print Tech of Western PA   **Pittsburgh, PA**
Website Specialist/Programmer   June 2022 – Present
JavaScript, HTML, CSS, VS Code, Infigo, Adobe, Enfocus Switch, Postman, WordPress

- Programmed and maintained 200+ E-commerce websites using HTML, CSS, and JavaScript, ensuring smooth functionality, high performance, and optimal user experience.
- Engaged in frequent client meetings to understand their company's desires, vision, and specific requirements for their E-commerce storefront.
- Proactively addressed client concerns, provided prompt resolutions to issues, and maintained a high level of responsiveness to ensure a smooth and positive experience for the client.
- Introduced and integrated APIs into Infigo's E-commerce platform, enhancing efficiency through automation and data sharing, which results in less human interaction.
- Leveraged Enfocus Switch automation platform to streamline workflows and daily processes, reducing manual effort and enhancing efficiency through the creation and implementation of automated scripts.

Springdale High School   **Springdale, PA**
JV Head Coach   November 2022 – Present

- Served as a dedicated high school basketball coach, leading, and mentoring a team of student-athletes, fostering a positive team culture while instilling values of discipline, teamwork, and perseverance.

PROJECTS

Portfolio Website, May 2024
JavaScript, ReactJS, Tailwind CSS, Bootstrap, Vercel, GitHub

- Developed a comprehensive portfolio showcasing my projects, technologies used and live demo links.
- Built a responsive layout ensuring accessibility and visually appealing on various devices.

Golf Website Revamp, June 2024
TypeScript, ReactTS, Vite, Vercel, GitHub

- Revamped the company's existing website both functionality and visually using modern web technologies.

TelePreceptMatch, Spring 2022
JavaScript, React.js, Node.js, SQL, Heroku, GitHub

- Collaborated in a team to program a live website to connect students with preceptors for clinical rotations.

Network Packet Analyzer, Fall 2021
JavaScript, Python, Wireshark

- Implemented a user-friendly UI that does packet analysis on a local network.

EXTRACURRICULAR ACTIVITIES

Duquesne Women's Basketball Team – *Male Practice Player*   August 2018 – March 2022
